

Unlimited visibility.

No ceiling.

Clear skies.

(And that's just
our business climate.)

As one of the nation's largest hubs, Charlotte/Douglas International Airport is uniquely situated within 650 miles of more than 50% of our nation's population. But serving 148 cities worldwide isn't the only reason why more and more businesses are relocating to the Charlotte region. In fact, although we have over 500 daily departures, one visit here and you'll know why no one is ever in a rush to leave.
